REMOTE CONTROL 4 CHANNEL SWITCHER

av access multi switch

Easy to connect **for all A/V Equipment**

The INVISIO AV Access multi-switch offers you an easy way to connect all your security or A/V entertainment products. Simple to use, just plug your video camera, VCR, games console, and DVD all into the INVISIO A/V Access multi switch, and use your remote control to select your preferred appliance.

For security applications, simply connect up to 4 CCTV security cameras to your INVISIO A/V multi switch, and you have an entire security surveillance system at your finger tip !

You can also adjust the in-built auto scanner to automatically scan through each channel, with adjustable dwell time up to 20 seconds. Or, select and view the channel you prefer.
