IR Night Vision

WIRELESS OUTDOOR CAMERA KIT

dura cam express

Weatherproof Day & Night View with IR LED's

The INVISIO Dura Cam Express, Wireless Camera Kit, offers you a quick and flexible security solution for Indoor and Outdoor use. Just plug in and it works instantly!

NO WIRES on the camera means its fully portable** when connected to a 9V battery and can be moved around to suit your requirements, or connect it to mains power with the power adaptor (both included).

Monitor areas in daylight one day and in low light the next with Dura Cam Express's Night Vision LED's which automatically produce Infra-Red light at night.

Easy to install, with a range of up to 100metres*, and an adjustable stand that allows you to view the angle you require to view within minutes, the INVISIO Dura Cam Express with sturdy metal case is ideal for areas subject to the varying elements of the weather.

*In direct line of sight. Transmission range may vary depending on your location and surrounding environment.
